# Vulnerable Adult Protection Dashboard

## Data Description

### **Data Source: DHS Data Warehouse**

Data is generated from a working database, as a result, numbers can change over time due to data cleanup and requirements for data destruction after 3 years.

### **Data Limitations**

Minnesota encourages reporting based on a standard of suspicion of maltreatment of a vulnerable adult and accepts all reports made. All allegations of suspected maltreatment of a vulnerable adult may not be reported to the Minnesota Adult Abuse Reporting Center (MAARC). A report made to MAARC may include more than one allegation. Multiple reporters may report the same incident resulting in duplicates. The number of allegations does not reflect all reported instances of maltreatment abuse. Not all allegations reported meet the definition of maltreatment under Minnesota law and not all adults reported meet the definition of a vulnerable adult under Minnesota law.

### **Data Description**

#### **Step One: Report**

Suspected abuse, neglect, or financial exploitation is reported to the Minnesota Adult Abuse Reporting Center.

**Total Reports** is the total number of adult maltreatment reports received by MAARC in the calendar year. This count is by unique report number.

**Total Allegations** is the total number of allegations reported within the adult maltreatment reports received by MAARC in the calendar year. Each allegation type is counted once per report.

#### **Step Two: Refer**

Each adult maltreatment report received by MAARC is referred to the agency responsible to respond. Reports are referred to the agency responsible within two (2) working days. The agencies include: County Adult Protective Services, DHS Licensing and MN Dept of Health.

**Agency Reports** is the total number of adult maltreatment reports, MAARC received in the calendar year, by the agency responsible to respond.

**Total Agency Reports** may include duplicate counts when more than one agency is responsible for a single report. As a result, the Step Two - Refer, "Agency Reports" total, will not match the "Total Reports" total in Step One - Report.

**Agency Allegations** is the total number of allegations referred to the agency responsible to respond. Each allegation type is counted once per report received by the agency responsible. However, Total Agency Allegations may include duplicate counts when more than one agency is responsible for the same report. As a result, the Step Two - Refer, "Agency Allegations" total, will not match the "Total Allegation" total in Step One - Report.

# Vulnerable Adult Protection Dashboard

## Data Description

### **Step Three: Response**

Each report is reviewed by the agency responsible to make decisions on how to respond to the report and protect the vulnerable adult.

**Agency Reports** is the total number of adult maltreatment reports, MAARC received in the calendar year, by the agency responsible to respond.

**Total Agency Reports** may include duplicate counts when more than one agency is responsible for a single report. As a result, the Step Two - Refer, "Agency Reports" total, will not match the "Total Reports" total in Step One - Report

**Accepted for Investigation** is the total number of reports the agency responsible received in the calendar year that met requirements for investigation.

The agency responsible reviews every report to make decisions on how to respond to the report and protect the vulnerable adult. The agency has five (5) business days to decide if the report meets the requirements for investigation. Minnesota law allows agencies to use their own guidelines to decide which reports require investigation. County APS agencies use a standardized tool, provided by DHS, and their own guidelines to decide and initiate a response immediately if there is a need for emergency adult protective services. The person who made the report will receive information on whether the report met the agency's investigation requirements.

### **Step Four: Determination**

The agency makes a determination for every report that meets the requirements for investigation.

**County APS Agency Determinations** is the number of determinations the county APS agency made in the calendar year by allegation and determination type. If the agency decides the allegation, referred by MAARC, requires investigation, the agency generally has sixty (60) days to complete the investigation. Vulnerable adults, who are the subject of the report, may be offered protective social services to stop, reduce risk, and prevent abuse, neglect, or financial exploitation.

- The purpose of the investigation is to determine if maltreatment occurred and if it occurred, who was responsible.
- Assessment and service interventions to safeguard the adult are concurrent with the investigation.
- Only determinations made in the calendar year are reflected in the data. Allegations referred by MAARC, but not determined in the calendar year are not included.
- Data does not include allegations that were not investigated.

# Vulnerable Adult Protection Dashboard

## Step One: Report

Suspected abuse, neglect, or financial exploitation is reported to the Minnesota Adult Abuse Reporting Center (MAARC).
