# Land Acknowledgement and Declaration of Commitment - Cici

We, the members of the State Advisory Council on Mental Health and Subcommittee on Children's Mental Health, acknowledge that the wealth of this country was built on stolen land and with enslaved and underpaid labor of African American, Native American, and Immigrant people. We acknowledge that the recent global uprising, which was sparked by the murder of George Floyd here in Minnesota, paired with the COVID-19 pandemic, makes for a time of profound uncertainty, shame, fear, and distrust. We also recognize that despite those feelings, we all must actively challenge the impact of our own implicit biases and how they may influence our decisions as individuals and leaders.

Furthermore, we recognize that racism also expresses itself in policies and practices that either target or erase BIPOC communities and erect barriers to their prosperity. Therefore, we pledge to be vigilant in monitoring the formulation of policies and practices that produce harm to vulnerable populations. We also commit to being open to other people's truths as we acknowledge the resilience, creativity and generosity of the human spirit and we hold firmly to a persistence of Hope.

With these issues in mind, we commit to dismantling systemic and structural racism by initiating and supporting policies, practices, and the allocation of resources that promote diversity, equity, inclusion, and shared power.

# Workgroup and Break Outs, Claudia

As we prepare for our ability to promote the legislative report to the Governor and legislators, we are hoping to collect a short summary of any recommendations that originated from your workgroup. I am looking for a very short summary with bullet points that can be easily understood by the reader. This will support other members' ability to easily discuss subject matter that is not necessarily their specialty to their representatives, senators, stakeholder groups, or whomever they are presenting the information. This would ideally be on your agenda at your next workgroup meeting. Once collected we will share with one another to promote in spaces. (send bullet points to Mikki [michele.maruska@state.mn.us](mailto:michele.maruska@state.mn.us))

Secondly, we are asking that your workgroup, or designated representative(s) take the lead on having meetings with the respective department/committee lead/leadership contact that would be associated with your workgroup's recommendation.

For example, if you provided a recommendation related to increased funding for mental health services for incarcerated youth then you may seek to do outreach with the Department of Corrections. Some of our recommendations are associated with a monetary component and so it is reasonable that it would potentially be beneficial to connect with the leadership in charge of creating the departmental budgets *before* it is finalized for next year.
