Vulnerable Adult Protection Dashboard

Data Description

Data Source: DHS Data Warehouse

Data is generated from a working database, as a result, numbers can change over time due to data cleanup and requirements for data destruction after 3 years.

Data Limitations

Minnesota encourages reporting based on a standard of suspicion of maltreatment of a vulnerable adult and accepts all reports made. All allegations of suspected maltreatment of a vulnerable adult may not be reported to the Minnesota Adult Abuse Reporting Center (MAARC).

- A report made to MAARC may include more than one allegation.
- Multiple reporters may report the same incident resulting in duplicates.
- The number of allegations does not reflect all reported instances of maltreatment abuse.
- Not all allegations reported meet the definition of maltreatment under Minnesota law and not all adults reported meet the definition of a vulnerable adult under Minnesota law.

Data Description

Step One: Report

Suspected abuse, neglect, or financial exploitation is reported to MAARC.

Total Reports is the total number of adult maltreatment reports received by MAARC in the calendar year. This count is by unique report number.

Total Allegations is the total number of allegations reported within the adult maltreatment reports received by MAARC in the calendar year. Each allegation type is counted once per report.

Step Two: Refer

Each adult maltreatment report is referred to the agency responsible to respond within two (2) working days. The agencies include: County Adult Protective Services (APS), DHS Licensing, and MN Department of Health (MDH).

Agency Reports is the total number of adult maltreatment reports, MAARC received in the calendar year, by the agency responsible to respond.

Total Agency Reports may include duplicate counts when more than one agency is responsible for a single report. As a result, the Step Two - Refer, "Agency Reports" total, will not match the "Total Reports" total in Step One - Report.

Agency Allegations is the total number of allegations referred to the agency responsible to respond. Each allegation type is counted once per report received by the agency responsible. However, Total Agency Allegations may include duplicate counts when more than one agency is responsible for the same report. As a result, the Step Two - Refer, "Agency Allegations" total, will not match the "Total Allegation" total in Step One - Report.

TOTAL AGENCY REPORTS BY GENDER	33,208	56.6%	24,893	42.4%	581	0.99%	58,682	

Gender Unknown: VA's gender was refused, unable to be determined, not known, or not provided by the reporter.

Total Agency Reports may include duplicate counts when more than one agency is responsible for a single report. As a result, the Step Two - Refer, "Agency Reports" total, will not match the "Total Reports" total in Step One - Report.

Vulnerable Adult Protection Dashboard

Step Two: Allegations Referred

Each adult maltreatment report is referred to the agency responsible to respond within two (2) working days. The agencies include: County Adult Protective Services (APS), DHS Licensing, and MN Department of Health (MDH).
