All programs maintain data documenting the nature and extent, or number of service units provided to each recipient. Programs remain eligible to bill for a client's intensity level when the client misses services, provided the program documents both the reason the client missed the service(s) and the interventions taken. Effective August 1, 2024, hours in a treatment week may be reduced in observance of federally recognized holidays. Room and board is not eligible for medical assistance payment as substance use disorder treatment.
