

Using Electronic Quality Improvement Plan for Parent Aware Grants - Accelerated, Expedited or Automatic Pathways

This document assists childcare programs that have been awarded grants after earning a Parent Aware Rating in documenting their expenditure requests. Programs do this in their Develop Organization Profile using the Electronic Quality Improvement Plan (EQUIP).

In order to complete these steps, a program must have access to its Organization Profile. Programs that do not have access should follow the instructions on how to register in [Creating an Organization Profile \(PDF\)](#), or the instructions to request access to an Organization Profile that is already registered in [Requesting Organization Profile Access \(PDF\)](#).

EQUIP allows programs to create goals, called Action Items, and track progress toward meeting those goals.

Licensed childcare programs that receive Parent Aware Ratings via the Accelerated, Expedited and Automatic Pathways will use EQUIP to document what they want to purchase with their Parent Aware grant money. The Action Items that programs create will help to document how the requested purchases are improving program quality.

Programs should make sure to work with their Parent Aware Quality Coach through this process. Programs and coaches will decide what purchases can best support quality improvement. If a program is licensed and accredited, and has earned its Rating via the Accelerated Pathway or has earned its Rating via the Expedited Pathway, its Quality Coach is Nikki Lepowsky (nikkil@childcareawaremn.org). If a School-based Pre-K or Head Start program earned its Rating via the Accelerated or Automatic Pathway, its Quality Coach is Krista Solie (ParentAware.MDE@state.mn.us).

Once a program has entered Action Items to document what they want to purchase, notify your quality coach for review and approval. A Child Care Aware Grant Administrator will also review and approve requested expenditures. Questions can be sent to the Grant Administrator by email at suegrantrequest@thinksmall.org.

These instructions explain how to enter an Action Item and document the items a program wants to purchase with Parent Aware grant money. They do not say what types of items are allowable or how to categorize requested items. Programs can work with their Quality Coach, and if needed, their Child Care Aware Grant Administrator if they have questions about allowable expenses.

You do not need to enter a due date.

If the goal is specific to one classroom or group of children, use the drop-down option to select the classroom/group. This is optional.

Use the field to type the **Intended Outcome**, or how the action will improve your program quality. Then, click **Next**.

The screenshot shows the 'Action Item Manager' interface with the 'Details' tab selected. The form contains the following elements:

7. On the Investment tab, use the Description of Purchase field to describe what your program wants to buy. The Description of Purchase must match the spending documentation/receipts you upload to the Documents tab.
 - Enter the total cost of the item. (Your Quality Coach will enter the amount requested.)
 - Select the population served, and whether the item is culturally responsive.
 - The other information on this tab will be filled in by your Parent Aware Quality Coach or by your Child Care Aware Grant Administrator.
 - ➔ **Note:** Because your Grant Administrator has not entered the Grant Award yet, the total cost and the cost to the program are the same. When your Grant Administrator approves the expense, they will enter the Grant Award and the cost to the program will go down by the amount the Grant Administrator enters in the Grant Award field.
 - Click **Close**.
 - ➔ **Note:** If you do not have an Investment tab, that means you did not select Materials or Professional Development as the action item type. Go back to the Required Info tab and select either Materials or Professional Development, and the Investment tab will appear.

Note: An option to add a short note for the uploaded documentation is available on this screen. This field can be used to notate a message if programs want to call their Grant Administrator's attention to something. See screen shot below.

The screenshot displays the 'Action Item Manager' interface. At the top, there are navigation tabs: 'Required Info', 'Details', 'Investment', 'Documents' (which is active and highlighted in blue), and 'Notes'. Below the tabs, there is a section for 'Documentation Required' with a checkbox.
