

# Help for helpers

## Community Engagement Resource Hub

A new online resource helps Minnesota's community organizations, faith groups and health care providers engage with the low-income people they serve about Medical Assistance and MinnesotaCare.

Help public health care program enrollees, especially those who experience disparities, continue to access health care services by sharing information about Medical Assistance and MinnesotaCare renewals.

### The Community Engagement Resource Hub:

**Offers downloadable tools to spread the word, including ads, fliers, social media posts and videos**

**Connects you with the Minnesota Department of Human Services to support your outreach efforts**

**Promotes events you host and identifies other events to collaborate on or attend**

The hub provides crucial renewal information and equips community partners like you with the resources you need. Find it at

[mn.gov/dhs/resourcehub](https://mn.gov/dhs/resourcehub)
