Recommendation Development Process (1 of 2)

- Workgroup met 11 times September through December.
- In September, members individually identified their immediate priorities and long-term concerns; then met to refine. Resulted in 11 immediate and 15 longterm priorities across 6 categories.
- In late September and early October, members voted on their highest 3 to 5 immediate and long-term priorities.
- From this vote and further refining discussions, group identified 5 primary categories or themes:
 - 1. Eliminating health disparities
 - 2. Eliminating barriers to data sharing across care continuum
 - 3. Supporting integrated care delivery, coordination, and management
 - 4. Enhancing patient care through assignment of patients to providers
 - 5. Identifying, aligning, and enhancing direct provider contracting opportunities
 - Members agreed to tackle the elimination of barriers to data sharing first. Throughout October, members identified and agreed on preliminary data sharing recommendations.

Recommendation Development Process (2 of 2)

- Group then shifted to remaining care delivery and contracting oriented topics. In November, members identified four primary areas of immediate concern (1) Health disparities; (2) Care coordination; (3) Enhancing member attachment; and (4) Multi-payer alignment.
- Group also identified an evaluation framework to utilize with recommendations and compared existing programs. Resulted in over 20 potential recommendations across the immediate concerns.
- In early December, members voted on the potential recommendations, indicating whether they were in agreement with each.
- In December, identified 16 immediate and 10 long-term recommendations.
- In late December, members voted on each of the 16 immediate recommendations – all recommendations received a majority of support.

Voting and Amendment Process

- Vote on full package
 - Majority required to accept current full package of recommendations.
 - Members may abstain.
- Amendments (if full package is not approved)
 - If a majority does not approve full package of recommendations, then we call for amendments.
 - Following debate, a **3/5 vote is required** for each individual amendment to be accepted. Members may abstain.
- Final vote on amended package (if necessary)
 - Once amendment debate and votes are complete, we vote on the full, amended package. **Majority required** to approve full package.
